What about all the time spent in apps?

Mobile web vs. apps

Mobile web

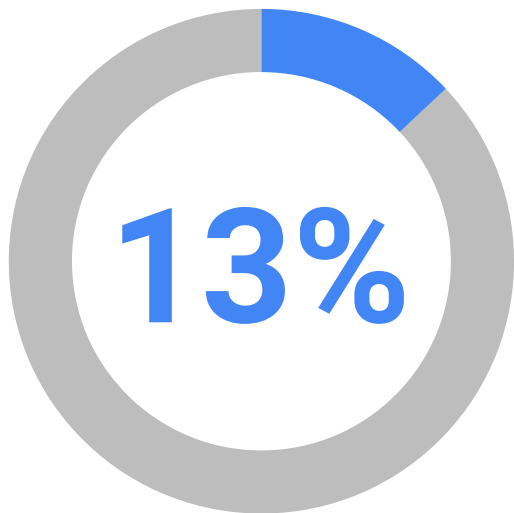

vs.

Apps

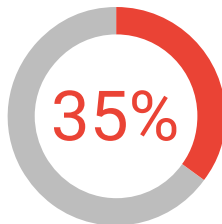

Time spent is concentrated in a few

Mobile web vs. apps

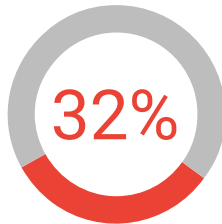

Mobile web

VS.

Social and messaging

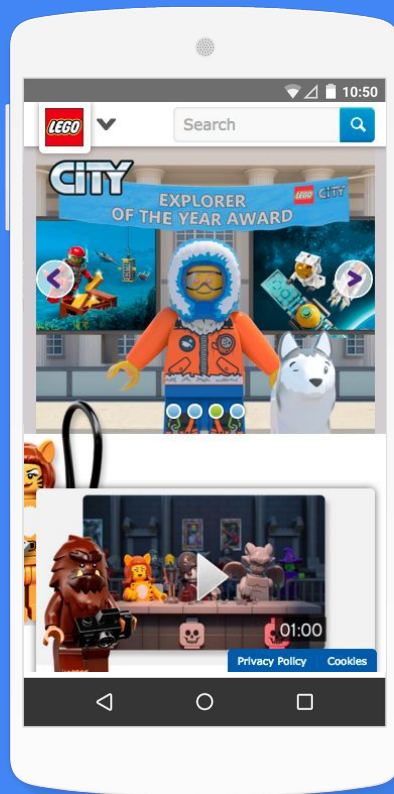

Entertainment
(Games, radio, multimedia)

Other apps

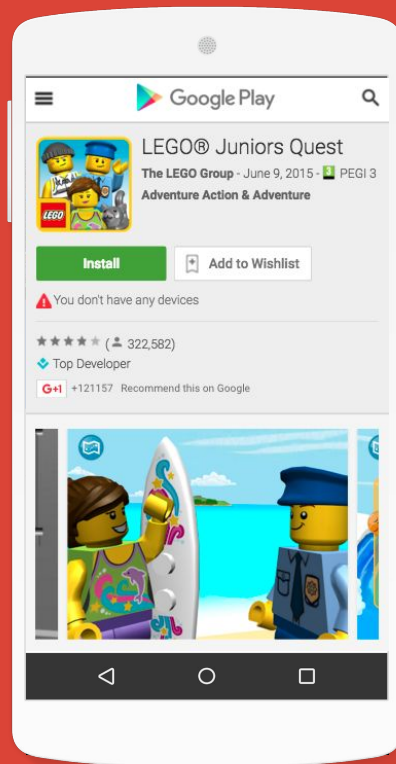

The case for sites-first

- ✓ Infrequent use
- ✓ Wide range of competitors
- ✓ Transaction-driven uses (Retail, Travel)
- ✓ For acquisition & retention

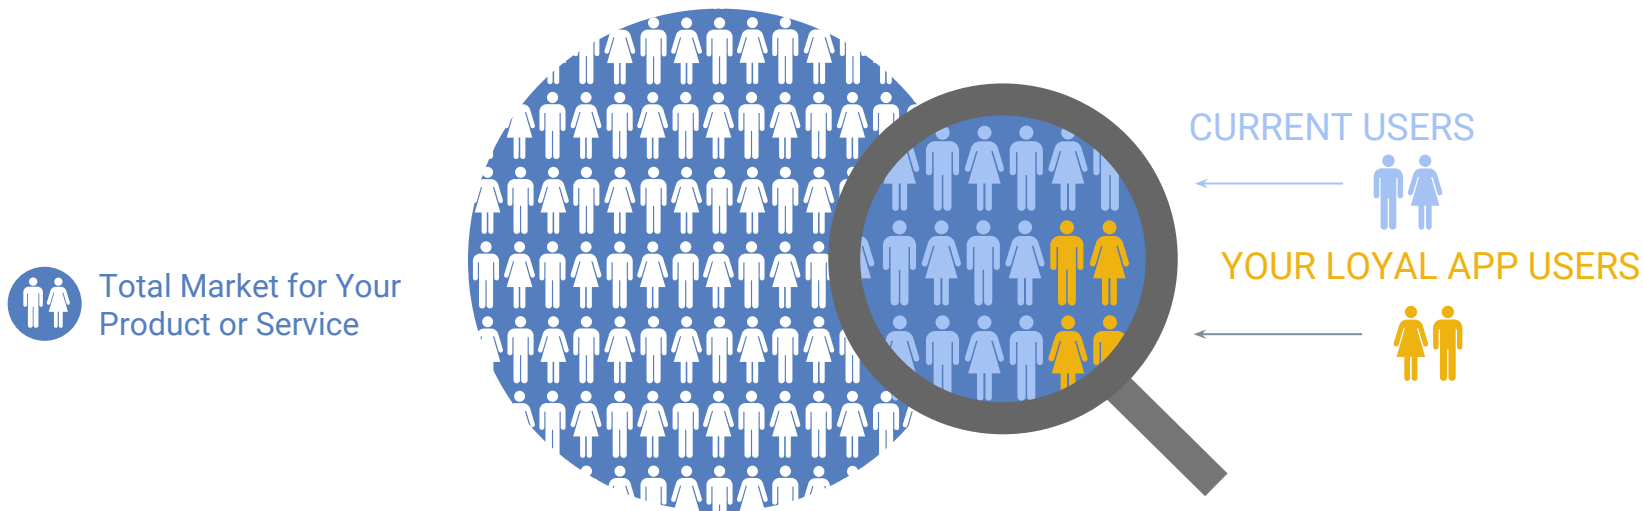

The case for apps-first

- ✓ High-frequency use (daily)
- ✓ App-only capabilities (e.g., offline)
- ✓ Productivity & Gaming use cases
- ✓ For loyal users

Most loyal users engage with your App

Source 1: <http://digitalservices.npr.org/post/why-mobile-web-matters> For NPR are twice as many visitors to mSite as Apps

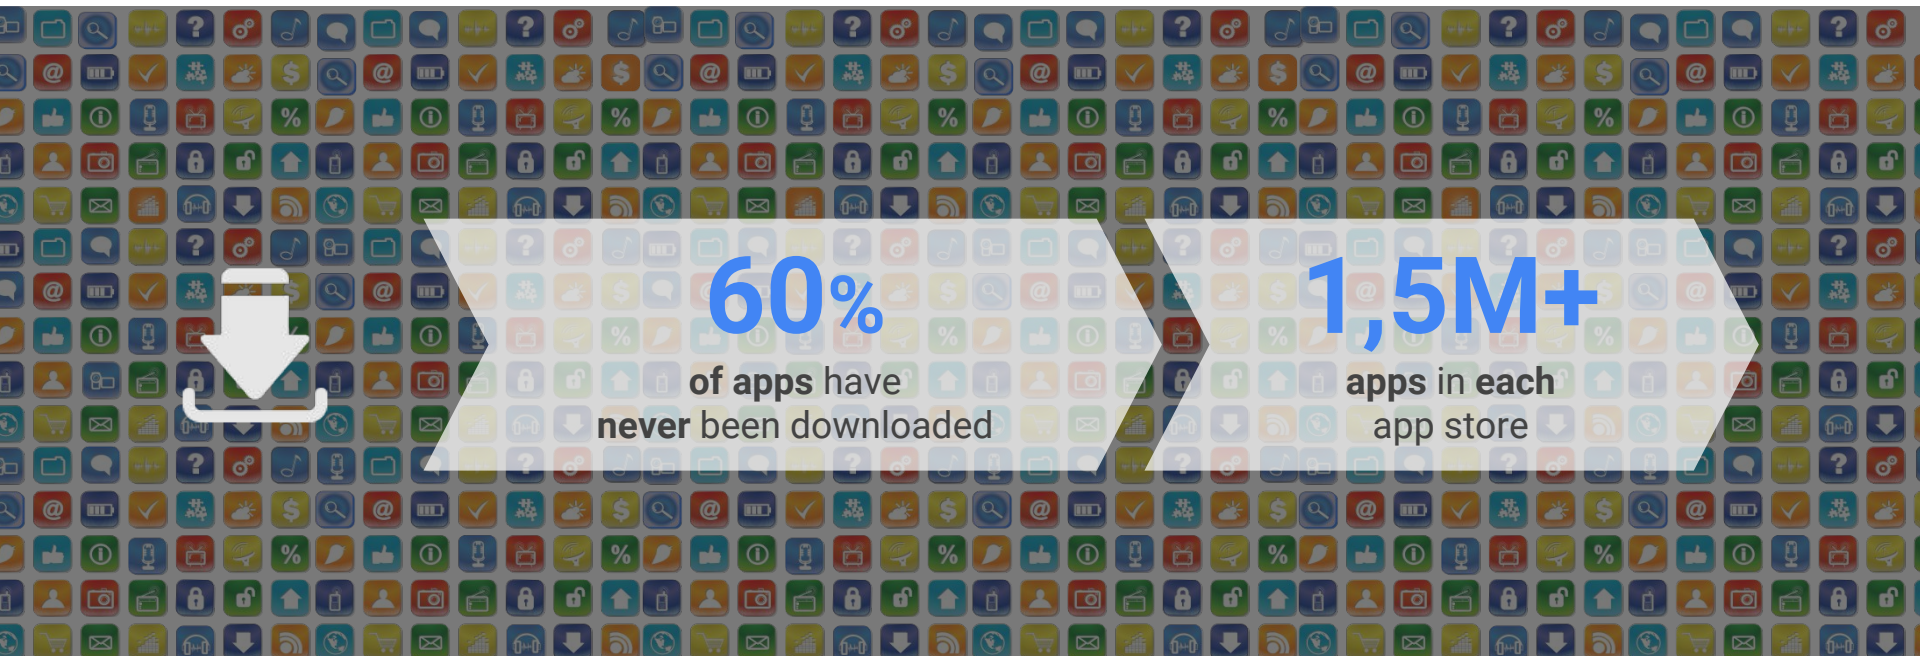

Source 2: Mobile Commerce Daily, "In an analysis of 46 million page views from mobile devices on Skava's clients' mobile Web sites and apps, including Gap, Staples, Macy's and Toys "R" Us, 97 percent of retail sales from mobile devices on Black Friday while apps accounted for just 3 percent."

Source 3: [comScore's MobileLens](http://comScore.com) report indicates that nearly twice as many smartphone users accessed online retail via a website rather than a native app, that only tells part of the story."

Universal App Campaigns - Ad Creation made easy

Proprietary + Confidential

or load settings from ? Existing campaigns ▾

Mobile app ? Which app do you want people to download?
Adventure Duck (Android) ▾

Ads

Add independent lines of text that will be used to generate your ads in different orders and several formats. ?

Venture into new lands!

25 levels of quacking fun.

Paddle furiously to win!

Totally customizable ducks!

Sample preview ?

Google Play Store

Google.com and search partners

Display Network

Add a YouTube video to be used for video ads. (Optional) ?

Adventure Duck - Trailer
by SpeedGames • 1451906 views

Your app icon and images are automatically pulled in from Google Play

If you have a video, simply input the YouTube URL in order to show on YouTube & AdMob Video inventory

TO EDIT

Behind the scenes, our systems will auto-optimize ad variations that maximize install performance

Fallstudie

Linio senkt den Cost-per-Install mit Universal App-Kampagnen um 20 % und steigert dabei Installationsvolumen

DIE ZIELE

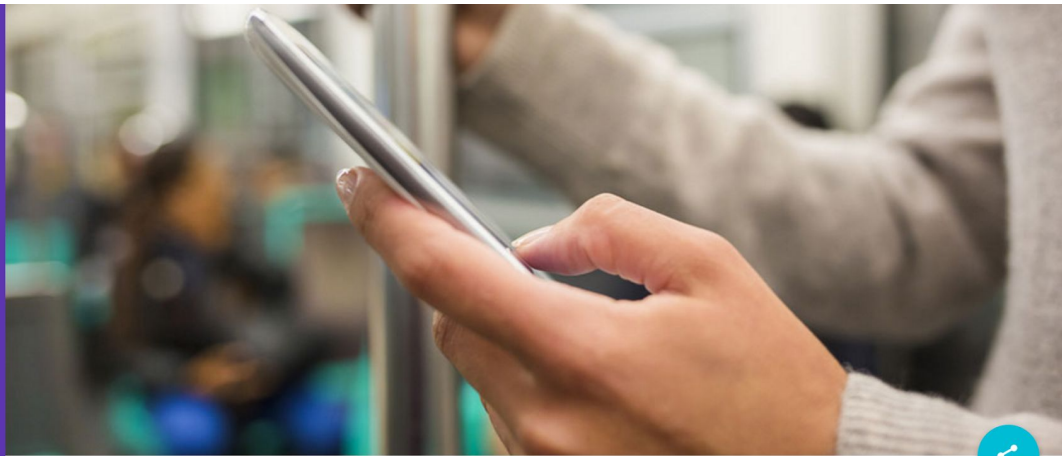

- Schnelle Skalierung der App-Werbung in mehreren Ländern

DER ANSATZ

- Die Android-Apps des Unternehmens wurden mit Universal App-Kampagnen beworben.
- Für jedes Land wurde ein separater Cost-per-Install festgelegt.
- Der Cost-per-Install wurde anhand des Durchschnitts anderer Kanäle bestimmt.
- In den Kampagnen wurden die Alleinstellungsmerkmale und Calls-to-Action verwendet, mit denen im Displaynetzwerk die beste Leistung erzielt wurde.

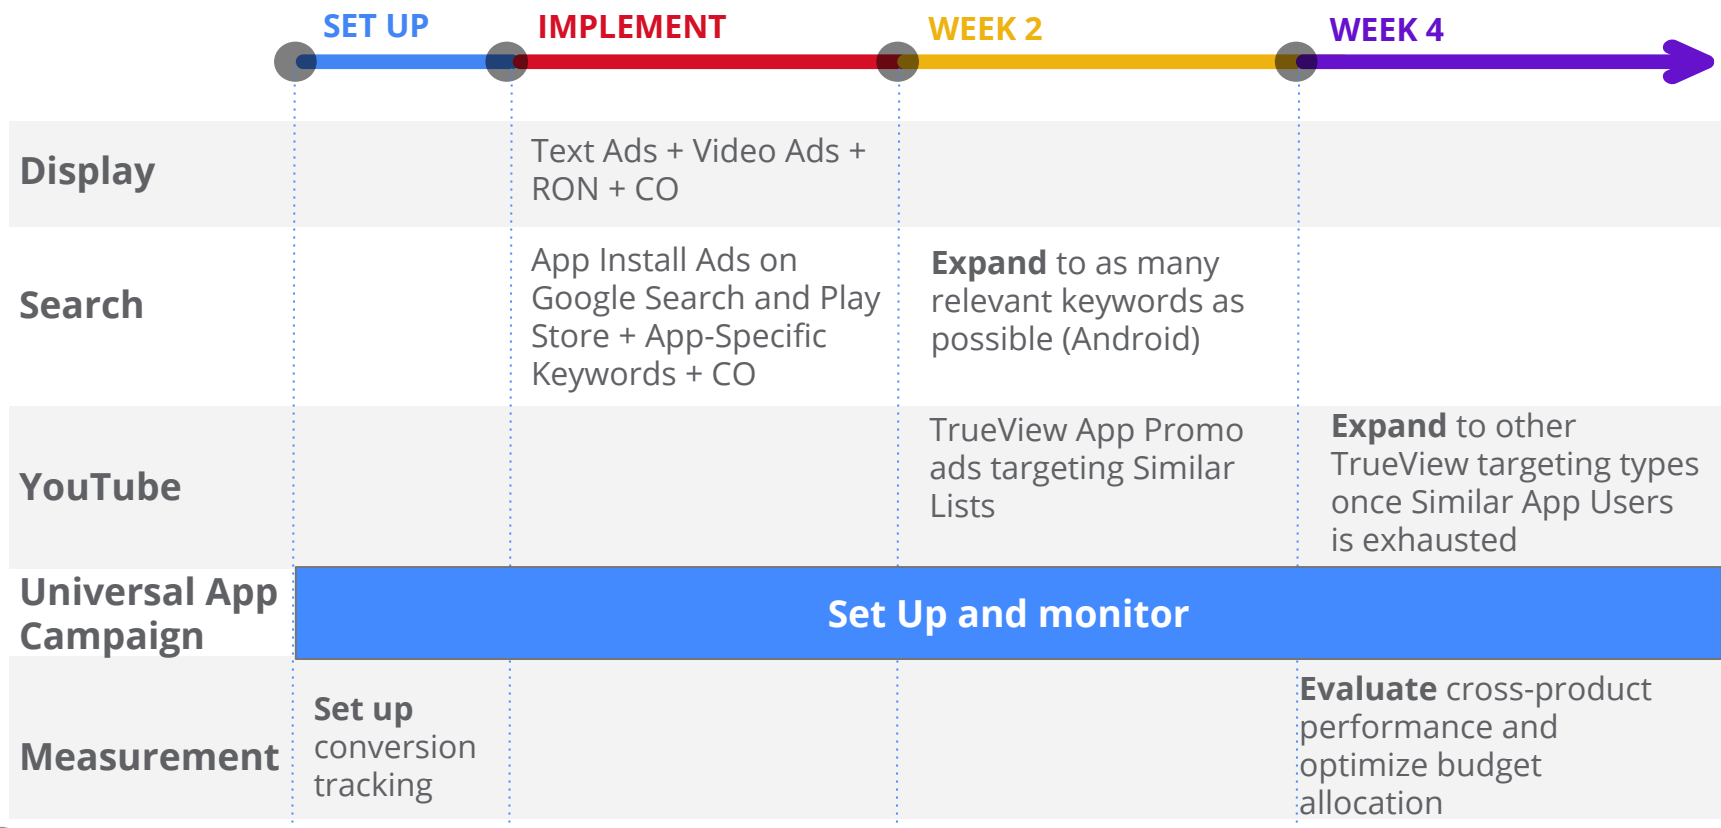

DIE ERGEBNISSE

- Insgesamt mehr als 80.000 Installationen in sechs Wochen
- Höhere Installationsrate und um 20 % niedrigerer Cost-per-Install im Vergleich zu App Promotion Lösungen außerhalb der Google Plattformen

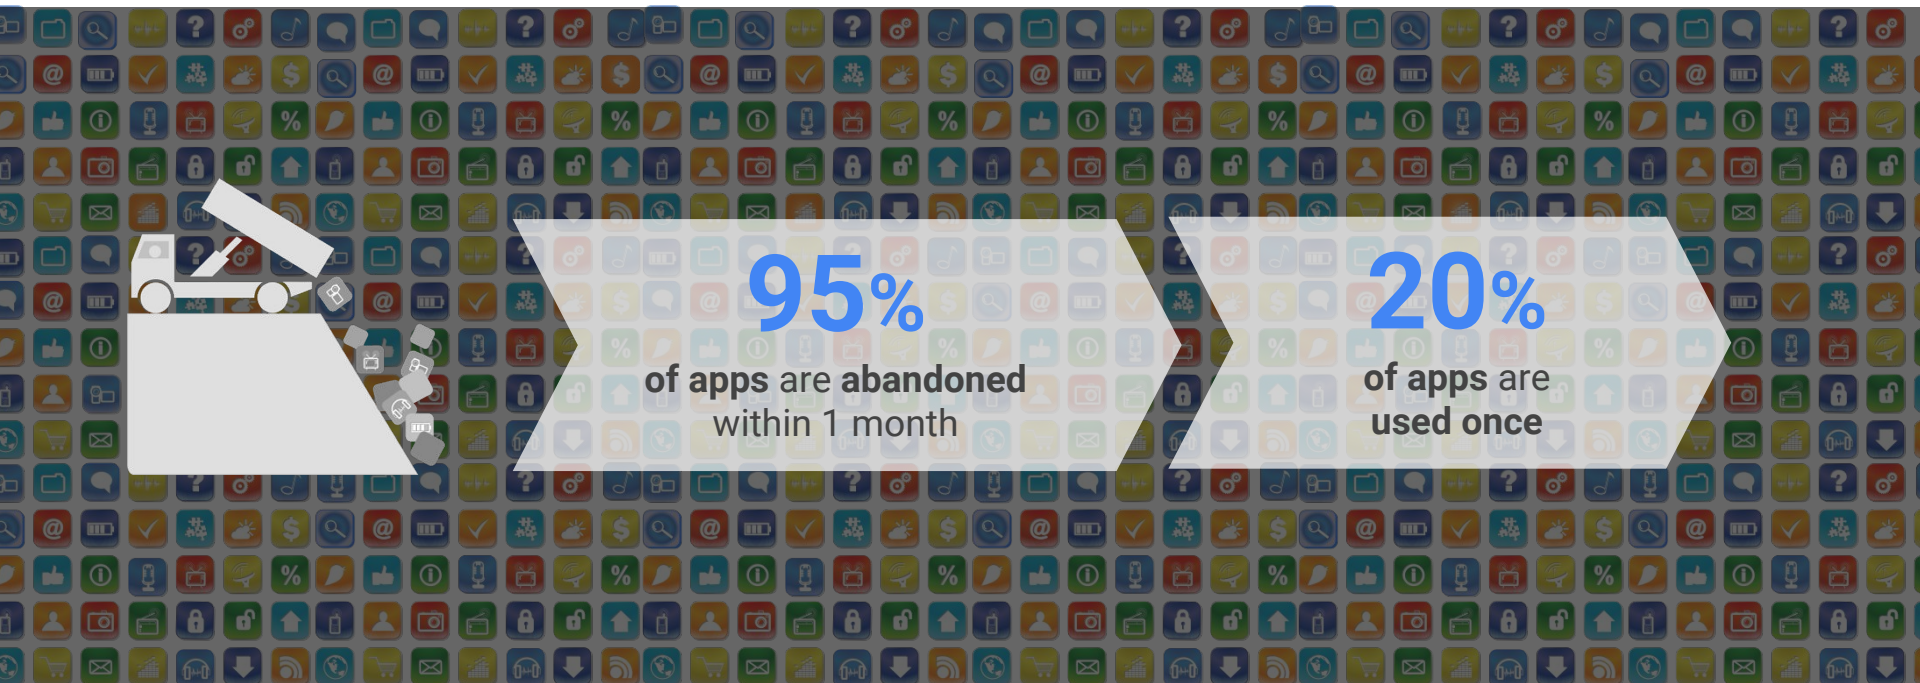

Linio ist ein Onlinehandelsunternehmen, das vor drei Jahren von Rocket Internet gegründet wurde. Heute beschäftigt Linio 2.000 Mitarbeiter und ist in acht Ländern Lateinamerikas aktiv: Argentinien, Chile, Ecuador, Kolumbien, Mexiko, Panama, Peru und Venezuela. Das Warenangebot des Unternehmens umfasst Elektrogeräte, Haushaltswaren, Kleidung, Sportartikel und Produkte aus den Bereichen Gesundheit, Schönheitspflege und Mode sowie weitere Artikel.

Recommended Implementation Timeline

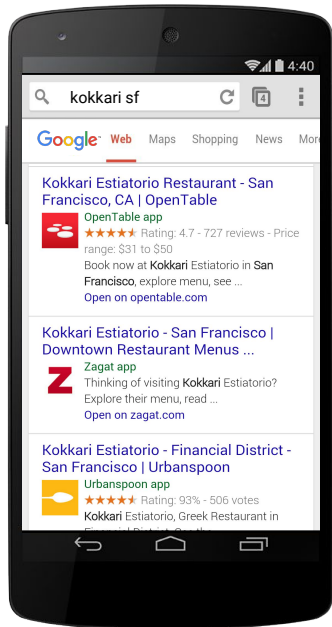

Challenge 2

Driving **engagement** with your app more frequently

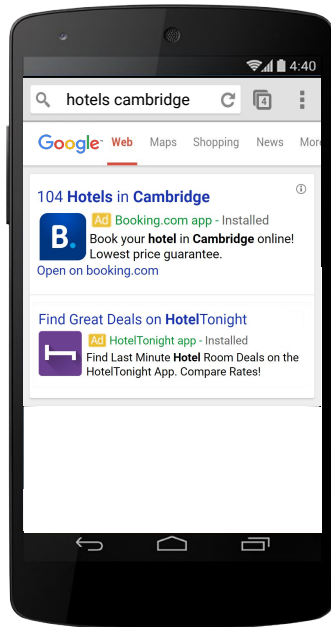

Engage existing users in the right mindset and drive them back into your app when they are...

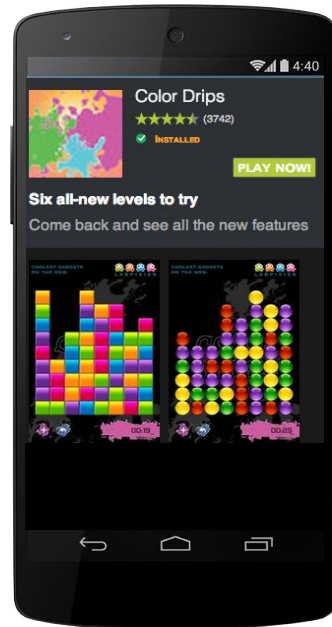

Searching-for-experiences

Ready-to-purchase

Looking-to-play

Three simple steps to drive business through your app

1

- Implement a **measurement strategy**

2

- Enable **deep linking** within your app

3

- Run **ads across AdMob and Google.com**

1. Select the best measurement strategy for your in-app conversion goals

Google Solutions

Google Conversion Tracking SDK

- Track in-app conversion events
- Build user lists for App Remarketing
- Works for AdMob display ads on Android & iOS (Search coming soon)

Google Analytics SDK

Measure:

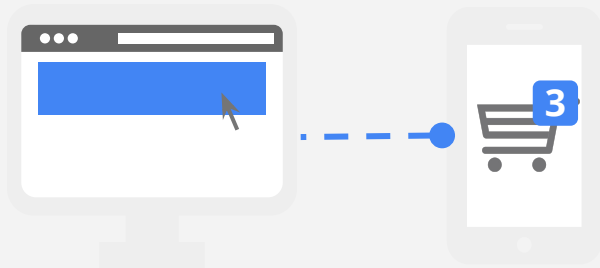

- User engagement
- Download sources
- Avg revenue per user
- Return on ad spend
- Lifetime value

Third Party

If you are working with a third party tracking provider, let your Google team know and they will confirm if it is fully integrated with AdWords.

Value the full impact of your display ads on users across devices

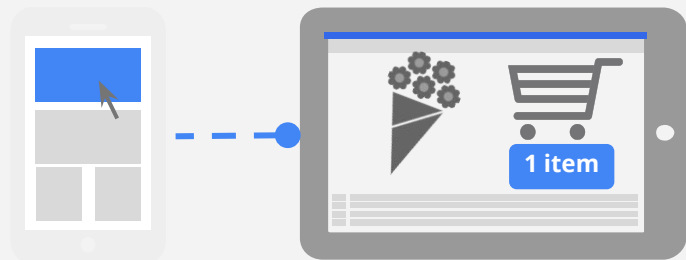

Web to In-app

User clicks
on Retailer's
desktop ad

Buys three pairs of
jeans on Retailer's
iPhone **app**

In-App to Web

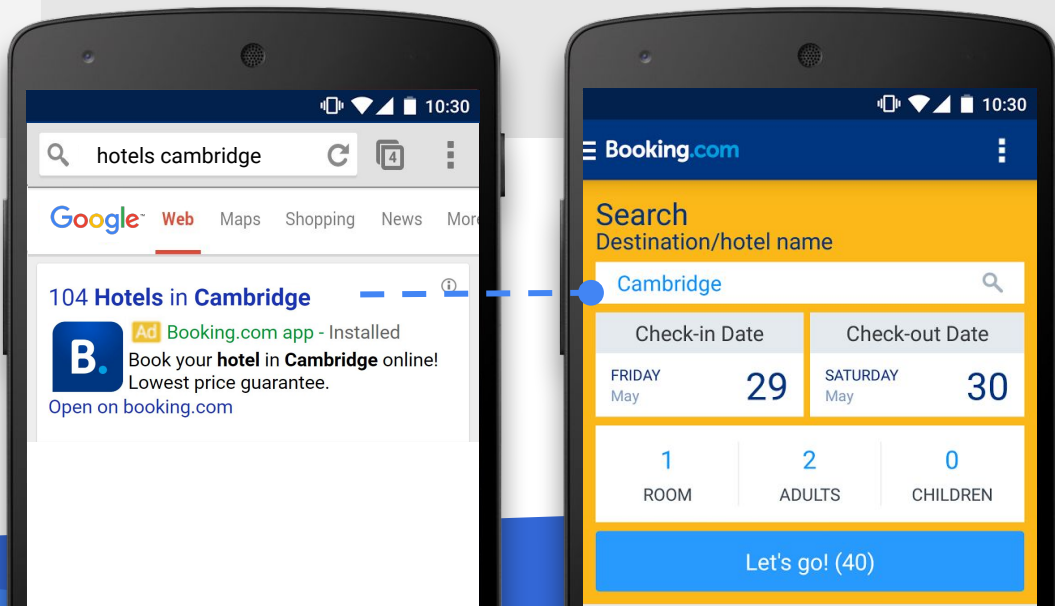

User clicks
on Mother's Day
flowers **ad inside**
gaming app

Later orders
flowers on his
tablet

2. Enable deep linking

Deep links bring users directly into a **specific location within an app**

Deliver **frictionless user experience** that users have come to expect from the web

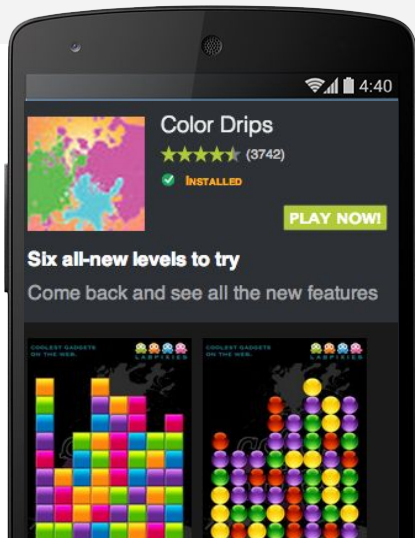

3. Reconnect with users on AdMob & Search to drive in-app conversions

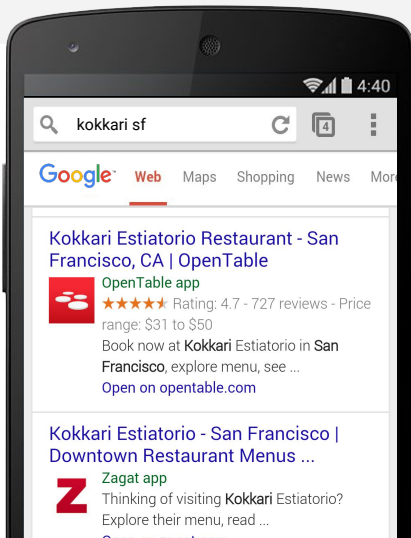

Enable
deep linking

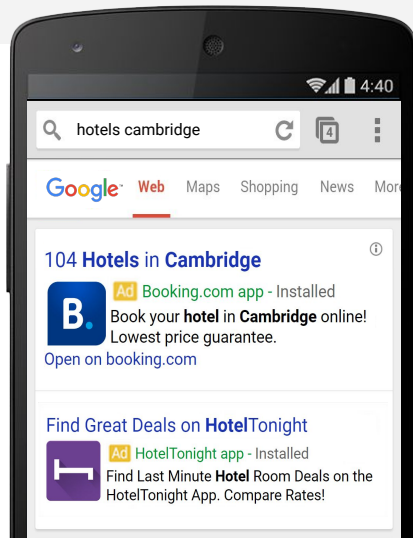

Start testing **App Re-Engagement** on
AdMob

Submit your app for
Indexing to improve
organic **Search** traffic

Run **Search**
Engagement Ads

Using Display App Engagement Ads on the Google Display Network, foodpanda efficiently drives app engagement among consumers

About foodpanda

- Digital food ordering marketplace
- Funded by Rocket Internet, Goldman Sachs and others

Goals

- Increase loyal customer base and associated customer lifetime value
- Encourage app engagement
- Develop setup to work across markets with sufficient control
- Unlock new inventory

Approach

- Initiated in-app ad campaign across the Google Display Network
- Displayed App Engagement Ads to customers who previously exhibited intent by ordering in or installing the app
- Designed ad creative to inspire new intent and subsequently re-activate these customers
- Delivered tailored ads, including dayparting based on availability of partners

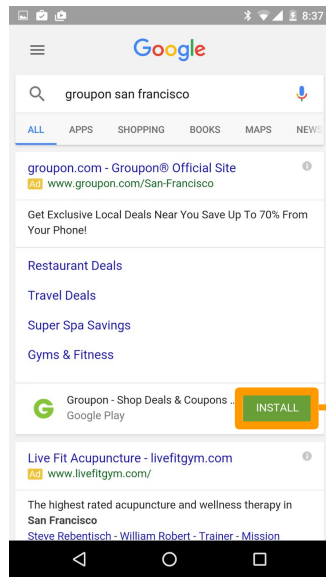

Results

- Surpassed sales from desktop remarketing campaigns
 - Increased in-app advertising to become the main lever of display remarketing activities
 - Decreased cost per order by 71%
-

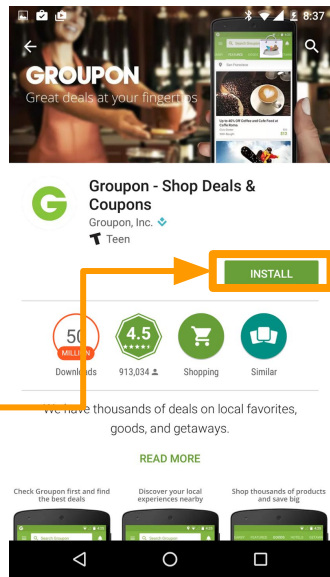

Ways to include In App Events in Automated Bidding

CO	Objective	Drive Installs	Drive In App Event	Drive In App Purchase
CO for app installs	CO to drive higher volume of App Installs at lower cost	YES	NO	NO
CO for App Engagement	CO to drive higher volume of App engagements at lower cost - only in Display so far	No	Yes	Yes
CO for Buyers	CO to drive In app purchases (IAP). For Gaming only	YES (higher value installs, Android only)	NO	YES (Android only)

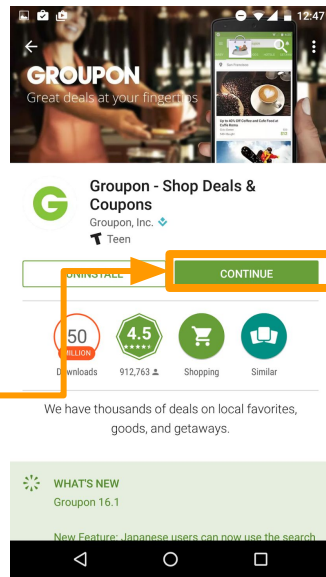

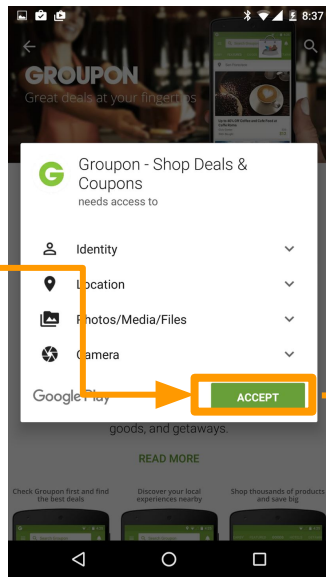

Search App Install and Continue *scales engagement* by reaching all users who exhibited intent

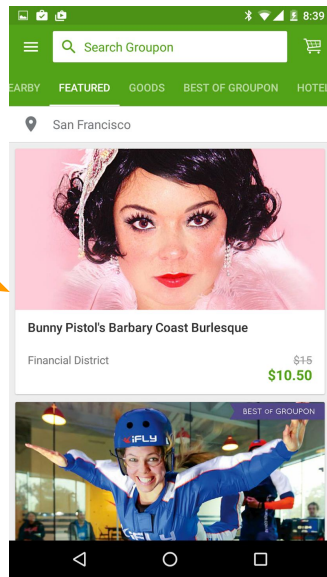

Search
on the Google Search App
or Google.com

Install
the app

Continue
to the desired app
content

Convert
in app

Best practice

Measure everything, identify customers that you want to bring back and understand Life time value

Tracking

Measure everything beyond installs, to understand your most valuable users and their behaviors

Offer something unique

Leverage app to provide unique experience (e.g., in-store reward, exploding offers, discounts)

Build remarketing lists

Define in-app triggers (dropped out of purchase flow) or key segments (lapsed users, buyer) to target

Seamless checkout

For IAP or commerce, make checkout flow a breeze (login/pay button, less clicks/fields, 1-click purchase)

Proactive outreach

Consider available channels (e.g., e-mail, app push notifications, back of register tape) to re-engage

Deep-linking

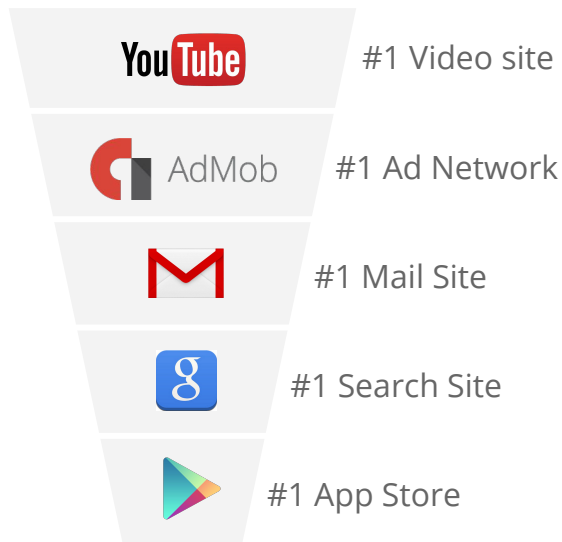

Develop your app with this in mind; enables ads to direct customers into deeper, more targeted sections of app

We have you covered, across iOS and Android
